Mr. Lawrence Leveque
Office of Public Affairs
U.S. Environmental Protection Agency
Region V.
77 W. Jackson Blvd.
Chicago, Illinois 60604

Dear Mr. Leveque:

I am a local businessman, who has attended the meetings and been involved in this Hi- Mill Manufacturing Company's fiasco.

While following the development of the D.N.R. and Hi-Mill's journey, I am glad to see the E.P.A. bring this to an end.

I have read the E.P.A's Proposed Plan for remedial action, attended the public hearing and I support the no action alternative recommended by the E.P.A.

It is evident that your agency's first commitment to protect the public health and environment has been met and your department should be commended for effectively bringing this issue to a conclusion.

Sincerely yours,

Colasanti's Farm Market
